Sentinel-V 5020 Vital Signs Monitor

On-Site Clinical Training

A comprehensive overview and understanding of the features, menu functions and monitoring operations of the Sentinel-V 5020 Vital Signs Monitor.

Training includes:

- Onsite consultation with one clinical representative from your customer ('Train the Trainer')
- Competency checklist designed to build basic understanding and user proficiency
- Detailed navigation through each menu setting
- Tips for patient preparation, lead and sensor placement as well as troubleshooting techniques
- Technical support during a live surgical/treatment procedure using the 5020 Vital Signs Monitor

Fee: \$275.00
